- Upheld a positive atmosphere by connecting and engaging with Ford employees entering and exiting the building.
- Demonstrated a calm and problem-solving approach in responding to incidents and critical situations.
- Implemented safety and security procedures, site-specific policies, and executed emergency response activities to ensure a secure environment for clients.

LEADERSHIP EXPERIENCE & ACTIVITIES

Hack Dearborn

Dearborn, Michigan

October 2023

- Actively participated in Hackdearborn 2.0, a hackathon event at University of Michigan.
- Took the opportunity to learn from others' experiences and code implementations.

Shadow Tag

Through Python, Tkinter, & random

- Shadow Tag is a Python + Pygame game where a shadow tries to grab a glowing orb while avoiding a beam of light.
- It features single-player and two-player modes, 10 increasingly challenging levels, and a colorful, kid-friendly interface.

Portfolio - <https://khalilaun.com>

Through JavaScript, React, HTML, & CSS / Tailwind CSS

- My portfolio showcases projects with well-designed, intuitive user interfaces, each linking directly to my GitHub repository.
- My portfolio features a modern, sleek design with intuitive navigation and visually appealing interfaces.
